

restaurant development + design

JULY/AUGUST 2020

The image shows a restaurant interior with a rustic, industrial aesthetic. The background is a wall of large, grey stone blocks. In the foreground, there are two round, tufted leather sofas arranged around a circular wooden table. The table is set with plates, glasses, and a small skull decoration with a red rose. Two ornate, red chandeliers hang from the ceiling, casting a warm glow. The floor is made of dark wood planks.

1. Alto-Shaam's Ventech

Ventech and Ventech PLUS Type 1 hoods with condensation technology eliminate the need for oven hoods and hood installations. With no traditional hood restrictions, operators can place the combi ovens anywhere in the kitchen. Available in single or stacked models, Ventech hoods condense steam while capturing and removing grease-laden air, vapors and lingering smoke. For more demanding locations, Ventech PLUS features a special HEPA filter along with the condensation technology to capture smoke-related vapor and steam generated in the cooking process.

2. Celia Series by MTS Seating

The Celia Series by MTS Seating consists of a fully upholstered dining seating built on a 1¼-inch-square aluminum frame. It is offered in a variety of back styles with both dining and barstool versions available. Celia's COMFORTweb seat was designed with the restaurant market in mind. The series includes a five-year structural frame warranty.

5. Foscarini Mix&Match Lighting

Foscarini's Mix&Match lighting system features three designs — Gem, Rituals and Gregg — made with blown-glass techniques to achieve different finishes. These lamps are available in floor, table, wall and ceiling models in three colors: white, gold and graphite. Individual pieces work on their own or can be grouped together.

6. Intetek Wireless Charging Surface

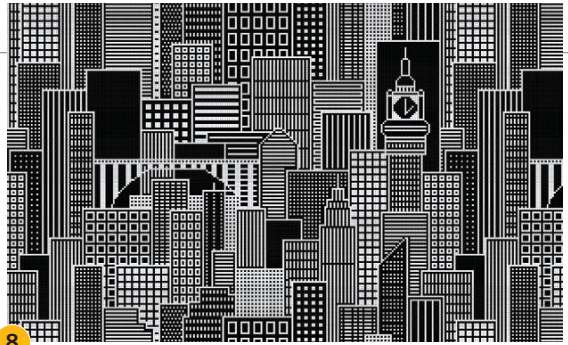

The Intetek Wireless Charging Surface is a Formica Laminate surface with integrated charging coils that wirelessly charge Qi Certified devices. Unlike wireless charging pucks or pads that clutter the surface and can be easily damaged by food or water, this product is fully integrated into a durable, easy-to-clean surface. The surface is available in the full range of more than 300 Formica brand Laminate colors, patterns and woodgrains.

7. Jardinico Umbrella

The JCP.501 Quad Sidepost umbrella covers 430 square feet and features aluminum construction and a crank lift system. Available to be configured as two, three or four umbrellas, each one operates and tilts individually. This Quad Sidepost umbrella is focused on the contract segment. JCP.501 features flexible rib ends and single wind vents. The umbrella is available in four high-end finishes, including the newly introduced Alu Teak finish.

8. GLYPH from Artaic

Artaic's new GLYPH wallcovering collection takes a modern approach to the ancient concept of hieroglyphics, showcasing simple images that tell a detailed narrative. Inspired by the properties of Artaic's new tile line, Vitreous Glass in 1-inch and ½-inch tile sizes, the collection can be custom fit. This high-quality Italian-style glass allows for modular capabilities and is available in more than 180 colors, with the ability to mix and blend shades to create a perfect color match.

9. Plexiglass Partitions

Maintain social distancing and personal separation with plexiglass partitions. Available in set and custom sizes and designs, plexiglass partitions can be installed on countertops or between tables with a floor mount. Countertop models start at 1/8-inch thickness, while floor partitions are ¼-inch thick.
