SURFACING

## EYE MAX

With loads of layers, bold patterns and a playful mix of inspirations, the new ranges of surfacing materials ensure no wall or floor needs to be a blank space.

### ARTAIC

[artaic.com](http://artaic.com)

Made in Boston by an in-house team using robotic technology, Verge glazed porcelain mosaic tiles reference the American West. The collection has less than 5% water absorption and is resistant to chemical attack, frost, thermal shock, glaze abrasion, staining and glaze cracking. Available in a glossy or matte finish.
