1. Armstrong Ceiling & Wall Solutions' MetalWorks

Armstrong expanded its MetalWorks Mesh ceiling panels to include a family of larger panel sizes. The large format 24-by-48-inch, 24-by-72-inch, and 24-by-96-inch lay-in ceiling panels are available as standard for select items in Expanded Metal, Woven Wire, and Welded Wire MetalWorks Mesh patterns in a variety of colors. This expanded offering joins the existing line of 24-by-24-inch panels that includes 32 patterns and a variety of standard colors. Armstrongceilings.com

2. Arper's Mixu Collection

Mixu, designed in collaboration with Gensler, is a

sustainable and versatile collection of chairs and stools that can be customized to suit the needs of any space. This three-part system of seat, backrest and base is available in a range of material components. Seat options include post-industrial recycled plastic, FSC-certified wood, fabric, or leather finishes. Combine seats with backrest options in a plastic, fabric, or leather and four-leg bases in either metal or FSC-certified wood. A stool option with the same size seat as the chair is available. Arper.com

3. Artaic Lasting Rugs Collection

Artaic celebrates the woven arts in this series of eclectic mosaic designs. Antelope Cobalt (pictured) is made of vitreous glass, which lends itself to vibrant and dynamic surfaces of mosaic

imagery. It is offered in ½-inch, ¾-inch and 1-inch tiles. Artaic.com

4. Bradley Corp.'s Mills Phenolic No-Site Partitions

The redesigned Mills Phenolic No-Site Partitions eliminate unpleasant gaps between doors and pilasters for complete restroom privacy. The integral No-Site design is now standard for all Phenolic models, elevating user privacy and enhancing the commercial restroom experience for all. The impact-resistant material comes in 12 new colors and four mounting styles. Select colors are available with seamless, extra-large panels up to 72 inches tall and 75 inches deep for creating
